Safety nets and Skills Development Project Kapoeta East

Boma Nachipho

Subproject: School cleaning of Nachipho primary school

Measurement: 19200 m^2

Bushy school compound with thick cover of shrubs before the beneficiaries worked on it

Activities the Beneficiaries were engaged in

- Clearing of shrubs
- Pruning of the tress
- Cleaning of the class rooms
- Clearing of grass on the compound

Positive benefit of this public works

- Protects the school facility against wild fire
- Wild animals no long used the schools as a harbor hence it's a safety to the public
- Encourage the community to use the facility since it had long been deserted (not in Use)
- Maintenance of public assets

The compound of Nachipo Primary School after the cleaning of the compound through the public works
